Dear Congressman Jacobs,

It is my pleasure to write a letter in support of the consolidation of the Kissing Bridge and Crane Ridge sewer treatment plants into one modern facility. This will greatly improve the water quality of Cazenovia Creek and the surrounding areas and will be a benefit to the people of the local community. I fully support the efforts of the Town of Concord to seek the necessary funding for the project.

Sincerely,

David J. DiPietro

To Whom it May Concern:

I am writing to express my support for the proposed consolidation of the Kissing Bridge and Craneridge Sewer Districts in the Town of Concord and the construction of a new wastewater treatment plant to serve both sewer districts.

Several years ago, the Town of Concord received \$30,000 in State funds through the Regional Economic Development Council Consolidated Funding Application process to study merging the districts and building a modern treatment plant. The existing facilities are over 60 years old, empty into the West Branch of Cazenovia Creek (which in turns empties into Lake Erie – a major source of municipal water for millions of persons) and both plants have more than 70 New York State Department of Environmental Conservation violations between both plants, so acting to address their age and deterioration is important.

The Town of Concord is seeking Federal Community Project Funding. I am pleased to support their application and I urge you to consider the Town's application.

Thank you in advance for your consideration.

Sincerely,

Dear Congressman Jacobs,

The Craneridge Association supports the Town of Concord and Supervisor Drozd in the replacement of our two (2) aging sewer plants. This Association is aware of our over forty (40) year facilities that service this community. Moreover, we are aware that the said facilities have had service failures and recent citations on the performance of same. We urge you work with the Town of Concord and Supervisor Drozd on available solutions. Thank you very much.

Sincerely,

Jeff Randall,

President Craneridge HOA

To whom it may concern,

I strongly support the Town of Concord's plan to consolidate the Kissing Bridge & Crane Ridge wastewater treatment plants. I have been informed this will improve the discharge from the plants going into the west branch of the Cazenovia Creek, thus helping the water quality in Erie County.

Sincerely,

Mark Fornes

To Whom It May Concern:

Springville Center for the Arts is a nonprofit multi-arts center. As an organization concerned with the overall quality of life in the area, we support efforts to improve water quality in the area. Specifically, we support the Town of Concord's project to combine wastewater treatment plants at Kissing Bridge and Craneridge. Given the impact of clean water, and the large footprint of Cazenovia Creek, we know our community can't reach its potential without this project.

Please feel free to contact our office with any questions or concerns.
